
Software Release Notes

HS Series 2K version 1.9.0

This document describes the changes from HS Series 2K version 1.8.0 to version 1.9.0.

If your projector has a firmware version older than version 1.8.0, after updating the firmware, perform both a factory and network reset. For more information regarding the reset, contact Christie Technical Support.

Affected products

The following products are affected:

- D13HD2-HS
- D13WU2-HS
- D16HD-HS
- D16WU-HS
- D20HD-HS
- D20WU-HS
- DWU1612-HS
- DWU2022-HS

Purpose of release

The primary purpose of this software release is:

- Improved TEC control flow for the RealBlack function.
- Added the Real Black **Light On Threshold** option in the on-screen display.
- Fixed an issue where zoom/focus moved unexpectedly during start-up.

Known issues

This release of HS Series 2K contains the following known issues:

- When using an existing configuration on Christie Twist/Mystique and you are prompted to clear the test patterns, the projector may clear the test pattern regardless of the given response.
- The side panel controls for focus adjustment do not work if an internal test pattern is displayed.
