Technical Bulletin

Securing an LCD display panel to an adjacent panel

This document provides instructions for installing the brackets that secure two panels to each other.

Affected products

These instructions apply to the following products.

- FHD493-XE
- FHD553-XE and FHD553-XE-H
- FHD553-XE-R and FHD553-XE-H-R

Securing an LCD display panel to an adjacent panel

Learn how to install brackets securing two LCD display panels together.

1. Ensure there is a minimum of 0.5mm, or the thickness of a credit card, between the two LCD display panels.
   Gaps smaller than 0.5mm may cause cracks in the glass.
2. Install two of the #2 Phillips screws through the bracket into one of the panels.
3. Install the other two screws through the bracket into the adjacent panel.
