Technical Bulletin

Network settings not changing until restart with CineLife version 2.2.1

An issue has been identified with CineLife version 2.2.1.

Editing settings on the **Service Setup** > **Network Settings** page does not cause the Ethernet settings to change immediately. The user interface shows the new network settings; however, the Ethernet adapter does not change.

The new network settings are properly applied the next time the projector restarts.

Affected products

The following products are affected.

- CP2308
- CP2308-C
- CP4325-RGB
- E3LH
