Total Support. Monitoring. Maintaining.
Troubleshooting. Solving.

CHRISTIE[®]

CHRISTIE PROFESSIONAL SERVICES

Christie® Professional Services is one of the industry's most trusted service providers, supporting commercial AV systems and our partners globally. Almost 95 years of experience in advanced display technology has given us deep insights that ensure the smooth delivery of your project within the most complex IT and AV environments.

With strategic locations worldwide and a comprehensive network of customer service engineers, project managers, and training and service technicians, we can rapidly dispatch the expertise and replacements you require.

People, process, technology — every step of the way

Every aspect of your commercial display system gets our attention and support. We monitor and manage equipment and systems in real-time, and provide onsite service, and complete logistics and parts support.

As an industry-leading technology provider, we offer:

- › **Partnerships with business leadership** that help you crystalize your project goals and identify challenges and opportunities to deliver a high commercial-value solution.
- › **Tailored service options** designed to fit your business requirements and budget.
- › **Quick, accessible, reliable support.**
- › **Consistent global services**, from simple break-fix to end-to-end support capabilities, through a single point of contact, so all your locations can access almost immediate event resolution expertise.
- › **Global leadership in technical AV expertise** including infrastructure, multi-platform, and multi-vendor technology skills.
- › **Remote service and automated web-based and mobile options** that help speed-up problem solving, and control the cost of IT infrastructure support and maintenance.
- › **Proactive monitoring and event notifications** that help minimize business disruptions.
- › **Speedy parts replacement capabilities**, stocked locally.
- › **Training and certification.**

"We are very proud to partner with Christie's Professional Services team. Bringing their 24/7 NOC service desk and their skilled field service technicians to our clients in the museum marketplace has been a huge benefit to our business. The service team truly understands our customers' needs and when the unexpected arises, they always go above and beyond to resolve the issue."

-Richard Garbett, VP Service and Support at D3D Cinema

WE'RE AT YOUR SERVICE

Monitoring your displays – day and night

We understand that downtime is not an option. As an extension of your AV/IT service team, it's our mission to keep your customers' equipment running and revenue flowing. At our world-class 24/7/365 Network Operations Centers (NOC), experienced Christie technicians do just that.

Using the latest in predictive maintenance tools and Cinergy, our remote monitoring and management software platform, our team spots potential issues before they impact your display system and provides advance notice of software upgrades for timely maintenance.

Real-time case management portal

Our Cinergy case management portal keeps you close to the status of your service cases and equipment, anytime, anywhere. Important day-to-day business won't be interrupted as you receive near real-time case management information and access to your system's profile information. And if you prefer to collate this information in a detailed on-demand report or automate scheduled summary reports sent via email for you and your team — we can do that too.

Support you can count on

› **Extended hardware coverage**

As Christie products age beyond their standard warranty, a ChristieCare plan can help provide the service parts you need, when you need them.

› **24/7/365 NOC service desk support**

Call on Christie and you won't hear a call center script. Christie engineers with in-depth knowledge of our products and ProAV applications staff our service desk.

› **Onsite preventative maintenance (PM)**

Our work records and site histories give us the detail we need to quickly diagnose current -- and prevent future — issues.

› **Onsite emergency maintenance (EM)**

If we can't resolve your issue remotely, we dispatch your case to the appropriate field engineer within the time frame of our service-level agreement (SLA).

› **Critical inventory management (CIM)**

Our critical inventory management program puts parts inventory on hold at all branch offices and authorized service centers. With managed parts depot support, we process 95% of all RMAs and ship replacements from stock within 24 hours.

› **Cinergy remote monitoring and management**

We can securely monitor and skillfully troubleshoot your critical systems issues and often resolve them remotely.

DISCOVER
