

# CHRISTIE COUNTERACT UR10

Corporate | Education | Government | Hospitality | Museums | Places of worship  
Retail | Sports venues | Theme parks and indoor attractions | Transit hubs

**Christie® CounterAct™ UR10 commercial UVC disinfection products use both UVC-LED upper room and patented Care222® far-UVC—plus visible light—within a single fixture for enhanced and safe airborne and surface disinfection in indoor public spaces around people.**

## Purpose-built for enhanced disinfection:

- › As easy to install as traditional commercial lighting fixtures, with automated control via an app for both Care222 and UVC-LEDs
- › Designed for 9-14' (3-4m) ceiling-height applications
- › Configurable, automated operation within the limits of current ACGIH and IEC occupational and environmental health guidelines, which may be reconfigured as guidelines evolve
- › Complies with UL and CE standards for electrical, control, and photobiological safety
- › Programmable to operate on a specific schedule
- › Instant on/off at full output power
- › Mercury-free light sources
- › Able to operate over a wide range of ambient temperatures
- › Wi-Fi wireless connectivity, or wired Ethernet connectivity
- › Includes room lighting with the ability to choose your perfect white: from cool with blue undertones to warm with yellow undertones and hues in-between
- › Available in black or white

**CHRISTIE®**

Christie CounterAct UR10 is the first UVC disinfection product for occupied spaces that combines the benefits of filtered Care222 far-UVC light with UVC-LED upper room for enhanced inactivation of viruses and bacteria in the air we breathe and the surfaces we touch.

### Specifications

#### AC

174-011103-01 UR10 W (white version)  
174-012104-01 UR10 B (black version)

Power supply	• 100-240V	
Power consumption	• 130W	
Rated current	• 1300mA max	
Frequency	• 50/60Hz	
Emission wavelength	• 222nm (into occupied space) and 275nm (upper room)	
Emission angle	• 222nm - 64° (to half-brightness)	
Lamp replacement cycle	• Up to 10,000 hours for 275nm	
Lamp type	• Surface disinfection: Care222® • Upper room air disinfection: 275nm UV-LED • Room lighting: 1,100 lumens (approx. 75W) that enables direct replacement of existing light fixtures	
Mounting	• See the installation drawing for details	
Operating conditions	Ambient temperature	• 0-40 C
	Ambient humidity	• 10-85% RH
	Altitude	• 0-2,000m
Control	• Remote-controlled via Android or iOS app (Wi-Fi) or wired RJ45 Ethernet connection <sup>1</sup>	
Dimensions	Size (D x H)	• 14.2 x 8.3" (360 x 211mm)
	Weight	• 13.5lb (6.2kg)
Warranty	• 1 year	

<sup>1</sup> Tablet is not included. Android 5.0 and above / iOS 12.1 and above.

### Disclaimer

All references to "disinfect", "disinfecting" and "disinfection" refer generally to the reduction of pathogenic bioburden and are not intended to refer to any specific definition as may be used by any governmental or regulatory authority including the U.S. Food and Drug Administration and the U.S. Environmental Protection Agency. The pathogen-reducing efficacy of Christie CounterAct products and their use in occupied spaces is dependent on many site-specific factors as well as proper installation and operation within specifications and in accordance with American Conference of Governmental Institutional Hygienist (ACGIH) guidelines. Ushio's Care222® filtered Far UV-C technology ("Care222 Technology") is protected under U.S. and non-U.S. patents. Christie has filed one or more patent applications(s) related to technical innovations in the Christie CounterAct UR10.
